DIARY NOTES

25X1

DD/S

19 December 1955

1. Kirk advised that we had received a letter from Chairman Davis of the House Manpower Subcommittee. I agreed to go with Norman Paul to talk with Congressman Davis about our general situation.

2. With the Director's approval [redacted] is going to add another man to the [redacted] staff. Inasmuch as Messrs. [redacted] came from the DD/I and DD/P areas Jack requests that the DD/S area supply the new man. As possible suggestions he has mentioned [redacted] of the Office of Logistics.

3. Norman Paul and I met with Mr. Dulles to discuss strategy in connection with the new building. Mr. Dulles saw Chairman Vinson this morning and was encouraged by his indication that he would be willing to support the location of our building in the District. I pointed out to Mr. Dulles that this would require a change in our basic legislation, as well as in our appropriation, in addition to Office of Defense Mobilization/White House clearance, etc. We agreed that we should make no move until we had studied the NCPC report. However, Mr. Dulles did think that he would talk to Sherman Adams about the matter.
